

Brook Sapphire is not music of the masses. With its loosey-goosey arrangements and his sensual deep vocal, the fourteen-track album **"H.E.A.R.T."** is a most accomplished work for all lounge lovers. All the songs could be either for long evenings in a relationships or for the first date in a new romance:

How I will feel; So we start; Erotic in the air; One love..... are only 4 of a fantastic opus.

Each track takes the listener on a journey of sensual listening pleasure and certainly deserve to be played and heard on mainstream radio stations. This is a cool and elegant album that brings the audience an excellent blend of lounge and pop music.

The entire album will pull you into its spell. It will take you on a trip and you never let go.

...be chilled!!
